EXPERIENCE

Rubidex

Mar. 2023 – Present

Senior Fullstack Engineer

Condesa, Mexico City

- Contributed to **system architecture**, development, and deployment of a Building Management System (BMS) built with **Next.js**, **NestJS**, and **PostgreSQL**. <https://bmsintel.com>
- Designed **RESTful APIs**, **database schemas**, and **WebSocket** integration for real-time sensor data ingestion and device control.
- Developed interactive **dashboards** with role-based access control for visualizing HVAC, lighting, and occupancy metrics.
- Containerized the application using **Docker** and configured **CI/CD pipelines** for automated deployments.
- Provided **leadership**, **direction**, and **supervision** to junior employees and teams.
- Applied **appropriate standards**, **processes**, **procedures**, and **tools** throughout the system development life cycle to support technical engineering products.

Listo.mx

Nov. 2021 – May 2022

Software Developer Intern

Roma, Mexico City

- Extracted and synthesized data from financial account statements to generate personalized **PDF summary reports**.
- Extracted key data from invoices and presented it dynamically in the user interface using **Django**.
- Implemented **automated tests** to ensure code quality and detect errors during deployment.
- Updated the **development environment setup** to streamline onboarding for future developers.

PROJECTS

IBM Multi-Agents City

2022

Socio Formador – Tecnológico de Monterrey

- Developed a multi-agent traffic simulation using **Mesa (Python)** and **Unity**, modeling vehicles and pedestrians to analyze agent decision-making and traffic behavior.
- Built a **Python API** to expose agent positions from the Mesa grid, enabling **Unity** to retrieve real-time data and render agents as **3D models**.

Ticketcrush.mx

2025

Freelance

- Built and managed dynamic pages for events and UI content using **Strapi** as a headless CMS.
- Designed reusable **content models** to support event listings, ticket information, and UI components.

EDUCATION

Tecnológico de Monterrey

Aug. 2019 – July 2024

B.S. in Computer Science and Technology

Álvaro Obregon, Mexico City

- Coursework:** Object-Oriented Programming, Programming of Data Structures and Fundamental Algorithms, Analysis and Design of Advanced Algorithms, Integration of Computer Security in Networks and Software Systems, Modeling of Multi-Agent Systems with Computer Graphics, Software Development
- Specialization Course:** Advanced Artificial Intelligence

SKILLS

Languages : Python, JavaScript, HTML/CSS, C#, C++, Bash, SQL, NoSQL

Tools : Figma, Notion, Jira, Trello, Miro, GitHub, OBS, Neovim, Linux, VS Code, Antigravity
